

### VALUE PROPOSITION

WeCan.Fund helps you move your idea from concept to reality, by building and deploying your solution into the blockchain.

### YOUR BLOCKCHAIN SOLUTION

#### WHAT?

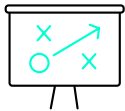

Strategic and technical experts offer to guide you step by step using agile methodology and iterative process.

#### WHY?

We handle all strategic, technological and legal aspects for a complete coverage of your blockchain needs.

#### HOW?

Our pre study, experimentation, and production leads to a fast co-developed integration, at affordable cost.

Business advisory from idea to implementation

Agile Methodology

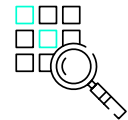

Offer without engagement

A deliverable at each stage

Tailor-made solution

Provider identification and coordination

### A 3 STEP PLANNING PROCESS

#### Pre-study

1

A strategic needs analysis involving the identification of a tailored blockchain solution for your business

#### Proof of concept

2

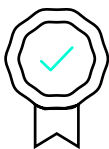

Development of a test version for your blockchain solution

#### Production

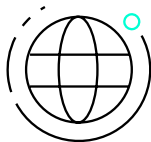

3

Integration and production of the tailored blockchain solution to your business

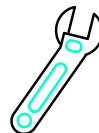

### BENEFITS OF USING OUR SERVICES

WELKNOWN EXPERTISE

A GLOBAL FOLLOW-UP

MAINTENANCE / SUPPORT

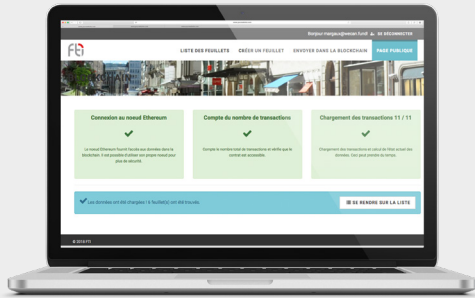

TECHNOLOGICAL DEVELOPMENT

### ABOUT US

We believe the strategic, economic and social paradigm will be deeply modified thanks to decentralization, which will facilitate exchange transparency, trust, inclusion and durability. Our mission is to create high value innovative blockchain solutions.

Created in 2015 in Geneva, WeCan.Fund offers crowdfunding and blockchain solutions to reach this objective.

## BUSINESS CASE

**WeCan.Fund assists the Geneva Industrial Land Foundation (FTI) to create Blockchain-based building rights.**

WHAT?	WHY?	HOW?
Create a decentralised, unchangeable, transparent and easily auditable marketplace to transact and register building rights	Create the first world-wide operational building rights registry on the blockchain	By creating a marketplace to facilitate building rights transactions between promoters with a legal value
